Subject index

A23187
calcium ionophore, hamster oocytes, pronuclear formation, egg activation 871
Abortion
abortion statistics, ESHRE multicentre trial 286
clomiphene citrate, assisted reproductive technology, IVF, GIFT 1154
HMG, clomiphene citrate, cervical factor, intrauterine insemination, pregnancy 801
recurrent abortion, antiphospholipid antibody, prednisolone, low-dose aspirin 203
recurrent abortion, intravenous immunoglobulin, pregnancy, C3 neodeterminants, complement 718
spontaneous abortion, early pregnancy failure, hormonal monitoring, progesterone, HCG 711
Acetylcarnitine
carnitine, seminal plasma, spermatozoa, cryopreservation 1245
β-*N*-Acetylhexosaminidase
oocytes, embryos, preimplantation diagnosis, Tay–Sachs disease, Sandhoff disease 1278
Acridine Orange test
sperm DNA status, sperm normal morphology, fertilization *in vitro*, IVF, GIFT 242
Acrosomes
acrosome-free spermatozoa, fertilization rate, subzonal insemination, oocytes, cleavage rate, IVF 248
acrosome reacted spermatozoa, follicular fluid, steroid content, progesterone, fluorescein isothiocyanate 646
acrosome reaction, spermatozoa, asthenozoospermia, ionophore 991
polyclonal antibodies, indirect immunofluorescence, sperm parameters, fertilization, IVF 841
pro-acrosin, monoclonal antibody, capacitation, IVF 1249
Adenomyosis
endometriosis, aminopeptidase N, neutral endopeptidase, CD13 and CD10 antigens, endometrial stromal cells 1326
Adenylyl cyclase
cyclic AMP synthesis, sperm membrane, sperm function 1126
cyclic AMP synthesis, spermatozoa, enzyme activation, calcium, bicarbonate 1131
Adhesions
fertility, fibrin glue, tubal anastomoses, Fallopian tube, rabbit 1274
Adnexal cysts
laparoscopy, ovarian surgery, ovarian non-closure, fertility 529
Alcohol
smoking, semen parameters, hormone stimulation tests, spermiogram, infertility 830
Amelogenin
multiplex amplification, DYZ1, preimplantation embryos, polymerase chain reaction, gender screening 1304
α-Aminitin
protein synthesis, gene expression, cleavage arrest, pre- embryos 1014
α-Aminoisobutyric acid
granulosa–luteal cells, insulin-like growth factor-1, IGF-binding protein, IVF 1094
Aminopeptidase N
neutral endopeptidase, CD13 and CD10 antigens, endometrial stromal cells, endometriosis, adenomyosis 1326
Andriol
testosterone undecanoate, failed fertilization, male infertility, IVF 267
Androgen receptor
immunohistochemical localization, endometrium, decidua, placenta 1461
immunohistochemical localization, follicular maturation, ovary 184
Androgens
free steroids, steroid-binding proteins, IVF 1365
oestrogen, gonadotrophins, number of microcysts, polycystic ovary syndrome 1201
Androstenedione
testosterone, sex hormone-binding globulin, GnRH analogue, HCG, ovarian hyperstimulation syndrome 918
Aneuploidy
chromosomal aneuploidy, oocytes, superovulation, IVF, meiotic non-disjunction 1396
cytogenetic studies, cytoplasmic dysmorphism, oocytes, ovarian stimulation, assisted reproduction 379
mouse zygotes, chromosome anomalies, growth hormone- releasing factor 1394
Anisomycin
protein synthesis inhibitor, embryos, 2-cell block, mouse 1291
Antiphospholipid antibody
recurrent abortion, prednisolone, low-dose aspirin 203
Antisperm antibodies
IgA, sperm–mucus interaction, immunobead test, mixed antiglobulin reaction 780
follicular fluid, ELISA, infertility, IVF 1384
male infertility, corticosteroid immunosuppression, mixed antiglobulin reaction, tray agglutination test 99
sperm motility, cervical mucus, prognostic factors 95
Appendicitis
transvaginal oocyte retrieval, IVF–ET, case report 850
Aprotinin
fibrin sealant, pregnancy, ectopic pregnancy, IVF 890
Aromatase
cAMP, granulosa cells, FSH, rat 191
Artificial insemination
Fallopian tube, sperm perfusion, frozen–thawed semen, HCG, pregnancy 806
intrauterine insemination, donor insemination, azoospermia, pregnancy 351
unexplained infertility, GIFT, ovarian stimulation 1235
Aspirin
low-dose aspirin, recurrent abortion, antiphospholipid antibody, prednisolone 203
Assisted conception
infertility, treatment effectiveness, cumulative pregnancy rate 785
Assisted reproductive techniques
anxiety, counselling, infertility, IVF 208
DIPI, infertility, ovarian stimulation, pregnancy rate 66
GIFT, pregnancy, combined pregnancy 131
HCG, pregnancy, fraud conviction 897
infertility, French Health Service 1335
IVF, GIFT, clomiphene citrate, pregnancy failure, abortion 1154
IVF, GIFT, tubal embryo transfer, pregnancy, biochemical pregnancy 418
IVF, India, opinion 49
IVF–ET, GIFT, world collaborative report 362
IVF–ET, IVF perinatal outcome, National IVF Registry, Israel 1159
oocyte donation, anonymous donors, psychological evaluation 51
ovarian stimulation, oocytes, cytogenetic studies, aneuploidy, cytoplasmic dysmorphism 379
rhesus monkey, IVF 1035
Atrial natriuretic peptide
calcitonin gene-related peptide, endothelium-derived relaxing factor, noradrenaline, bioactive peptides 1185
Automated sperm analysis
hyperactivation, velocity characteristics, sperm motion enhancement, pentoxifylline, phosphodiesterase inhibition 1257
Azoospermia
infertility, intrauterine insemination, donor insemination, pregnancy 351

Benign proliferative disorders
female, human, Editorial 291
Benzo[*a*]pyrene
pulsatile HCG, placental explants, superfusion culture, polycyclic aromatic hydrocarbons 305
Betadine
vaginal disinfection, fertilization rate, cleavage rate, pregnancy, IVF–ET 349
Bioactive peptides
endothelium-derived relaxing factor, noradrenaline, vasodilatation 1185
Biopsy
biopsied trophectoderm cells, polymerase chain reaction, human β-globin gene, preimplantation diagnosis, transgenic mouse model 1297
endometrial biopsy, epithelial tight junctions, Turner's syndrome, implantation 883
endometrial biopsy, luteal phase, infertility 973

endometrial explants, endothelial cell migratory signal, angiogenesis 1061
endometrium, endometrial capillaries, sub-epithelial vascularization, progesterone, morphometry 906
Biotinylated growth hormone
growth hormone receptors, granulosa cells, RNA hybridization, steroidogenesis 1205
Blastocysts
blastocyst expansion, myo-inositol, DNA synthesis, protein synthesis, rabbit 550
Breastfeeding
pulsatile LH, FSH, prolactin, lactational amenorrhoea 951
Bromocriptine
post-partum application, ovarian activity, ovulation detection, ultrasonography 746
Buserelin
GnRH agonist, HCG, IVF, ovarian hyperstimulation syndrome 1090
GnRH agonist, IVF, embryo quality, supernumerary embryos 1098
HMG, pregnancy, inhibin, IVF–ET, GIFT 1195
LHRH agonist, luteal support, pregnancy, IVF 1222
LHRH agonist, ovarian cysts, oestradiol, IVF 776
pituitary suppression, embryos, cryopreservation, ovarian hyperstimulation syndrome 962

C3 neodeterminants
complement, pregnancy, intravenous immunoglobulin, recurrent abortion 718
CA 125
immunoradiometric assay, uterine myomata, GnRH analogue, GnRH therapy versus hysterectomy 35
ovarian cyst, endometriotic cyst, corpus luteum 1314
CaIBP-52
calcium-binding protein, spermatozoa, immunocytochemistry 500
Calcitonin gene-related peptide
atrial natriuretic peptide, endothelium-derived relaxing factor, noradrenaline, bioactive peptides 1185
Calcium ionophore
mouse oocytes, cortical granule exocytosis, protease inhibitor, leupeptin 1004
oocytes, cryopreservation, dimethylsulphoxide, zona hardening, mouse 408
cAMP
aromatase, granulosa cells, FSH, rat 191
cyclic AMP synthesis, adenylyl cyclase, sperm membrane, sperm function 1126
cyclic AMP synthesis, adenylyl cyclase, spermatozoa, enzyme activation 1131
Carnitine
acetylcarnitine, seminal plasma, spermatozoa, cryopreservation 1245
CD13 and CD10 antigens
aminopeptidase N, neutral endopeptidase, endometrial stromal cells, endometriosis, adenomyosis 1326
2-cell block
embryos, anisomycin, protein synthesis inhibitor, mouse 1291
embryos, preimplantation development, mouse, taurine 403
in-vitro developmental block, glutathione, fluorimetric analysis, preimplantation embryos, mouse 1281
Cervical mucus
cervical mucus hostility, infertility, intrauterine insemination, slow release treatment, bolus treatment 227
hormonal dynamics, follicular development, cyclofenil, ovulation induction, oligomenorrhoea 39
nuclear magnetic resonance spectroscopy, rheology 915
sperm–mucus interaction, microbial colonization, infertility 612
sperm motility, antisperm antibodies, prognostic factors 95
sperm motility, hyperactivation, multivariate statistical analysis 1402
Chlamydia trachomatis
chlamydia-specific IgA, antibiotic treatment, serology 621
mycoplasmas, Pap smear, hysterosalpingography, intrauterine adhesions, IVF 483
'Chocolate' cyst fluid
CA 125, endometriotic cyst, ovarian cyst, corpus luteum 1314
endometriotic cyst, endometriosis, mouse 1329
Chromatofocusing
FSH isoforms, charge heterogeneity, in-vitro biopotency, pituitary glycoprotein, human 23

Chromosomes
chromosomal abnormalities, oocytes, cryopreservation, IVF, mouse 76
chromosomal aneuploidy, oocytes, superovulation, IVF, meiotic non-disjunction 1396
chromosome abnormalities, spermatozoa, Robertsonian translocation, meiotic segregation 825
chromosome abnormality, premature chromosome condensation, oocytes, embryos, IVF 230
chromosome abnormality, translocation, in-situ hybridization, heterochromatin, case report 495
chromosome anomalies, aneuploidy, growth hormone- releasing factor, mouse zygotes 1394
Clomiphene citrate
emdometrium, endometrial thickness, luteal phase, ultrasonography 1
gonadotrophins, endometrial stromal sarcoma, IVF, case report 72
HMG, cervical factor, intrauterine insemination, pregnancy, abortion 801
HMG, ovulation induction, bilateral versus unilateral ovulation, ipsilateral versus contralateral ovulation, sonography 475
HMG, stimulated cycles, folliculogenesis, GnRH antagonist, Nal-Glu 344
Co-culture
oviductal cell co-culture, embryo development, IVF 1144
oviductal cell co-culture, scientific evaluation, IVF 1339
Colony-stimulating factor-1
mRNA, in-situ hybridization, placental stroma 563
Complement
C3 neodeterminants, pregnancy, intravenous immunoglobulin, recurrent abortion 718
Computer-aided sperm analysis
digital image analysis, sperm motility, hyperactivation 1417
Conception
natural conception, seasonal mediators, epidemiology, human reproduction, primate reproduction 734
seasonality, time-series analysis, annual rhythmicity, fertility 899
Contraception
contraceptive pill, delayed menstruation, pregnancy 608
contraceptive research, IVF, infertility, Editorial 1183
Coronary disease
oral contraceptives, female hormones, menopause, oestrogen replacement therapy, risk factors 162
Corpus luteum
CA 125, endometriotic cyst, ovarian cyst 1314
hormonal profile, inadvertent GnRH, spontaneous pregnancy, IVF 465
leukocytes, leukocyte subpopulations, marker antigens, monoclonal antibody, cytokines 197
luteal phase support, HCG, ovarian hyperstimulation syndrome, pregnancy 758
Cortical granule exocytosis
mouse oocytes, calcium ionophore, protease inhibitor, fertilization 1004
Corticosteroid immunosuppression
male infertility, antisperm antibodies, mixed antiglobulin reaction, tray agglutination test 99
Cost-effectiveness analysis
IVF, tubal surgery, infertility 982
Cryopreservation
aged oocytes, infertility diagnosis, fertilization, spermatozoa 671
embryos, buserelin, pituitary suppression, ovarian hyperstimulation syndrome 962
embryos, progesterone, oestradiol/progesterone ratio, conception versus non-conception cycles, pregnancy 797
embryos, pronuclear age, slow versus ultrarapid freezing, mouse 660
epididymal spermatozoa, obstructive azoospermia, pregnancy 652
mouse oocytes, slow versus ultra-rapid freezing, microtubules, spindle morphology 857
oocytes, cold shock, fertilization, IVF–ET 1447
oocytes, fetal bovine serum, calcium ionophore, zona hardening, mouse 408
oocytes, mouse, cytogenetic analysis, chromosomal abnormalities, IVF 76
1,2-propanediol, embryos, 1-cell embryos, mouse 1451
1,2-propanediol, oocytes, microtubules, microfilaments, mouse 374
spermatozoa, acetylcarnitine, carnitine, seminal plasma 1245
spermatozoa, neoplastic disease, IVF–ET 105
spermatozoa, separation techniques, Nycodenz, Percoll, hamster egg test 654
ultra-rapid freezing, germinal vesicle-stage oocytes, in-vitro maturation, spindle morphology, mouse 1440

Culture media
acrosome-free spermatozoa, fertilization rate, subzonal insemination, cleavage rate, IVF 248
embryos, Vero cells, co-culture, embryotrophic factors, mouse 276
endometrium, endometrial stroma, glandular epithelium, immunomagnetic microspheres, cell purification 156
gonadotrophins, low density lipoprotein, human granulosa cells, progesterone, corpus luteum function 12
granulosa cells, HCG, FSH, cAMP, rat 191
granulosa cells, polycystic ovarian disease, oestrogen, progesterone, FSH 293
in-vitro block, epithelial cell culture, caprine embryos 553
platelet activating factor, radioimmunoassay, IVF, embryonic development 1435
Cumulative embryo score
IVF–ET, pregnancy, multiple pregnancy 117
Cumulative pregnancy rate
infertility, treatment effectiveness, assisted conception 785
Cyclofenil
ovulation induction, hormonal dynamics, follicular development, cervical mucus, oligomenorrhoea 39
Cysts
ovarian cysts, buserelin, LHRH agonist, oestradiol, IVF 776
Cytogenetic studies
aneuploidy, cytoplasmic dysmorphism, oocytes, ovarian stimulation, assisted reproduction 379
chromosomal abnormalities, oocytes, cryopreservation, IVF, mouse 76
oocytes, embryos, chromosome abnormality, premature chromosome condensation, IVF 230
Cytokines
interferon, interleukin-1, steroidogenesis, tumour necrosis factor 1361
interleukin-1, tumour necrosis factor, progesterone, follicular fluid, IVF–ET 462
interleukin-2, IL-2 soluble receptor, oestradiol, follicular fluid, IVF 926
interleukins, interleukin receptor antagonist, mRNA, reverse transcription–polymerase chain reaction, endometrium 1214
leukocytes, leukocyte subpopulations, marker antigens, monoclonal antibody, corpus luteum 197
Cytoplasmic dysmorphism
oocytes, ovarian stimulation, aneuploidy, cytogenetic studies, assisted reproduction 379

Decidua
decidual cell model, epithelial plaque formation, endometrium, RU 486, antiprogestin, rhesus monkey 1048
early pregnancy, RU 486, oestrogen receptor, progesterone receptor 934
endometrium, progesterone receptor, early pregnancy, immunohistochemistry 123
placenta, androgen receptor, immunohistochemical localization, endometrium 1461
Digital image analysis
computer-aided sperm analysis, sperm motility, hyperactivation 1417
Dimethylsulphoxide
cryopreservation, oocytes, fetal bovine serum, calcium ionophore, mouse 408
1,2-propanediol, embryos, pronuclear age, cryopreservation 660
Dipeptidyl peptidase IV
endometrial glandular cells, endometrial surface epithelium, enzyme marker of peri-implantation, enzyme histochemistry 1189
DIPI
infertility, ovarian stimulation, assisted reproductive techniques, pregnancy rate 66
Direct intraperitoneal insemination
infertility, ovarian stimulation, clomiphene citrate/HMG, hormone levels, pregnancy 813
Donor insemination
intrauterine insemination, azoospermia, infertility, pregnancy 351
ovulation prediction, urinary LH, pregnancy 63
Donors
oocyte donors, infertility, demographic analysis 726
selectivity, ovarian stimulation, oocytes, pregnancy 59
Dopamine
low-dosage dopamine, ovarian hyperstimulation syndrome, Letter 1181
peripheral infusion, ovarian hyperstimulation syndrome, IVF, GIFT 180
Doppler imaging
corpus luteum, placenta, progesterone, pregnancy 1467
DYZ1
multiplex amplification, amelogenin, preimplantation embryos, polymerase chain reaction, gender screening 1304

Electron microscopy
monoclonal antibody, sperm tail fibrous sheath, intermediate filament, Triton–dithiothreitol 86
ELISA
specificity, monoclonal antibodies, HCG, pregnancy tests, immunoassay 701
Embryology
female genital tract, genital malformations 437
Embryos
1-cell embryos, cryopreservation, 1,2-propanediol, mouse 1451
caprine embryos, epithelial cell culture, in-vitro block 553
2-cell block, anisomycin, protein synthesis inhibitor, mouse 1291
crown–rump length, gestational sac diameter, ultrasound, twin pregnancy 1170
cryopreservation, buserelin, pituitary suppression, ovarian hyperstimulation syndrome 962
cryopreserved embryos, IVF, endometrial receptivity, oestradiol valerate, progesterone 1353
cumulative embryo score, pregnancy, multiple pregnancy, IVF–ET 117
embryo–placenta relationship, superfusion culture, HCG, maternal medication 300
embryo cleavage, cigarette smoking, socio-economic factors, IVF–ET 358
embryo development, oviductal cell co-culture, IVF 1144
embryo quality, supernumerary embryos, GnRH agonist, buserelin, IVF 1098
embryo transfer, fibrin sealant, aprotinin, IVF 890
embryonic development, platelet activating factor, radioimmunoassay, IVF 1435
embryonic development, spermatozoa, mouse, human, IVF 1010
embryonic histamine-releasing factor, oestradiol, uterine mast cell, rat 1036
embryonic implantation, hormone replacement therapy 1111
frozen–thawed pre-embryos, progesterone, oestradiol/progesterone ratio, conception versus non-conception cycles 797
frozen embryos, endometrial receptivity, α-2 PEG, 24K, immunohistochemical staining 413
frozen embryos, obstructive azoospermia, epididymal spermatozoa, pregnancy 652
infertility, unexplained infertility, fertilization rate, embryos, IVF 223
intra-endometrial embryo transfer, viability, implantation, mouse 681
mouse embryos, co-culture, human skin fibroblasts, 2-cell developmental block, IVF 852
oocytes, cytogenetic analysis, chromosome abnormality, premature chromosome condensation, IVF 230
oocytes, infertility, pregnancy, IVF–ET 218
oocytes, zona-free oocytes, fertilization, mouse 281
oviductal cell co-culture, scientific evaluation, IVF 1339
pre-embryos, cleavage arrest, gene expression, protein synthesis, α-aminitin 1014
pre-embryos, α-immunoreactive inhibin, HCG, pregnancy specific β1-glycoprotein, IVF 545
preimplantation, metabolism, dry mass, mouse 112
preimplantation development, 2-cell block, taurine, mouse 403
preimplantation diagnosis, human β-globin gene, biopsied trophectoderm cells, polymerase chain reaction, transgenic mouse model 1297
preimplantation embryos, β-N-acetylhexosaminidase, Tay–Sachs disease, Sandhoff disease 1278
preimplantation embryos, in-vitro developmental block, glutathione, fluorimetric analysis, mouse 1281
preimplantation embryos, platelet activating factor, bioassay, radioimmunoassay, mouse 865
preimplantation embryos, polymerase chain reaction, β- globin, preimplantation diagnosis 630
preimplantation embryos, polymerase chain reaction, multiplex amplification, gender screening 1304
preimplantation embryos, viability, cleavage rate, mice 558
pronuclear age, cryopreservation, slow versus ultrarapid freezing, mouse 660
syngamy, pronuclei, hydatidiform mole, preimplantation diagnosis 994

Vero cells, co-culture, embryotrophic factors, culture media, mouse 276
zona-drilled embryos, zona thickness, elevated basal FSH, maternal age, implantation 685
Embryotrophic factors
culture media, embryos, Vero cells, co-culture, mouse 276
Endometrial stromal sarcoma
clomiphene citrate, gonadotrophins, IVF, case report 72
Endometriosis
adenomyosis, aminopeptidase N, neutral endopeptidase, CD13 and CD10 antigens, endometrial stromal cells 1326
definition, pathophysiology, medical therapy 432
dysmenorrhoea, dyspareunia, infertility 627
endometriotic cyst, ovarian cyst, CA 125, corpus luteum 1314
female infertility, assisted conception, treatment effectiveness, cumulative pregnancy rate 785
infertility, unexplained infertility, immunotherapy, alternative therapies 821
ovarian steroids, steroid receptors, endometrium, peritoneal mesothelium 1318
rabbit model, steroid receptors, immunohistochemistry, pregnancy 73
Endometriotic cyst
'chocolate' cyst fluid, mouse 1329
Endometrium
24K proteins, immunohistochemical staining, frozen embryos, endometrial receptivity, α-2 PEG 413
cytokines, interleukins, transforming growth factor-α, mRNA, reverse transcription–polymerase chain reaction 1214
decidualized endometrium, progesterone receptor, early pregnancy, immunohistochemistry 123
endometrial biopsy, epithelial tight junctions, implantation, Turner's syndrome 883
endometrial biopsy, luteal phase, infertility 973
endometrial biopsy, morphology, secretory component, immunohistochemistry, IVF 6
endometrial biopsy, placental protein 14, hormone replacement therapy 1042
endometrial capillaries, biopsy, morphometry, sub- epithelial vascularization, progesterone 906
endometrial explants, endothelial cell migratory signal, angiogenesis 1061
endometrial glandular cells, endometrial surface epithelium, enzyme marker of peri-implantation, enzyme histochemistry 1189
endometrial proteins, α-2 PEG, 24K, immunohistochemical staining, endometrial receptivity 413
endometrial receptivity, oestradiol valerate, progesterone, cryopreserved embryos, IVF 1353
endometrial stroma, endometrial carcinoma, androgen receptor, immunohistochemical localization 1461
endometrial stroma, fibronectin, fibronectin mRNA, progestin 141
endometrial stroma, glandular epithelium, culture medium, immunomagnetic microspheres, cell purification 156
endometrial stroma, glandular epithelium, oestrogen receptor-related antigen, monoclonal antibody, quantitative microphotometry 151
endometrial stroma, intra-endometrial embryo transfer, viability, implantation, mouse 681
endometrial stromal cells, aminopeptidase N, neutral endopeptidase, CD13 and CD10 antigens, endometriosis 1326
endometrial thickness, endometrial pattern, vaginal sonography, IVF 677
endometrial thickness, histological dating, clomiphene citrate, luteal phase 1
endometrial thickness, IVF, GIFT, tubal embryo transfer, biochemical pregnancy 418
endometrial thickness, progesterone, luteal phase, oestradiol, IVF 1210
epithelial plaque formation, decidual cell model, RU 486, antiprogestin, rhesus monkey 1048
glandular epithelium, surface epithelium, endometrial lymphoid cells, tissue antigens, integrin 876
peritoneal mesothelium, ovarian steroids, steroid receptors, endometriosis 1318
steroid receptors, immunohistochemistry, pregnancy, histoscore 73
stromal cells, culture, retinoic acid, retinoic acid receptors, transcript induction 692
Endopeptidase
neutral endopeptidase, CD13 and CD10 antigens, endometrial stromal cells, endometriosis, adenomyosis 1326
β-Endorphin
femoral vein blood, spermatic vein blood, varicocele 1414
Endothelial cell migratory signal
endometrial explants, biopsy, angiogenesis 1061
Endothelium-derived relaxing factor
bioactive peptides, noradrenaline, vasodilatation 1185
Enzyme immunoassay
α-immunoreactive inhibin, pre-embryos, HCG, pregnancy specific β1-glycoprotein, IVF 545
Epithelial cell culture
in-vitro block, caprine embryos 553
ESHRE multicentre trial
birth statistics, abortion statistics, addendum 286

Fallopian tube
selective salpingography, infertility 1425
sperm perfusion, frozen–thawed semen, HCG, pregnancy 806
tubal anastomoses, fibrin glue, adhesions, fertility, rabbit 1274
Falloposcopy
transcervical tubal cannulation, ectopic pregnancy, case report 274
Female genital malformations
embryology 437
Fertility
adhesions, fibrin glue, tubal anastomoses, Fallopian tube, rabbit 1274
conception, seasonality, time-series analysis, annual rhythmicity 899
Fertilization
aged oocytes, cryopreservation, spermatozoa, infertility diagnosis 671
assisted fertilization, partial zona dissection, micromanipulation, infertility 537
cortical granule exocytosis, mouse oocytes, calcium ionophore, protease inhibitor 1004
fertilization failure, donor oocytes, donor spermatozoa, IVF 978
fertilization failure, oocytes, subzonal insemination, spermatozoa, IVF 1407
hyaluronidase, oocyte–cumulus complex, extracellular matrix, ruthenium red 391
IVF, oocyte donation 1103
IVF-ET, oocytes, cryopreservation, cold shock 1447
oocyte maturity, progesterone/oestradiol ratio, follicular fluid, GnRH analogue, IVF–ET 479
pre-embryos, cleavage arrest, gene expression, protein synthesis, α-aminitin 1014
sperm fertility, hypo-osmotic swelling test, swim-up preparation, intra-uterine insemination 1264
sperm parameters, acrosome, polyclonal antibodies, indirect immunofluorescence, IVF 841
zona-free oocytes, embryos, mouse 281
Fetal bovine serum
cryopreservation, oocytes, calcium ionophore, zona hardening, mouse 408
Fetal liver transplantation
in-utero transplantation, stem cells, severe immunodeficiency disease, thalassemia, human fetus 44
Fibrin glue
tubal anastomoses, adhesions, fertility, Fallopian tube, rabbit 1274
Fibronectin
fibronectin mRNA, endometrial stroma, progesterone, medroxyprogesterone acetate, progestin 141
Fibrous sheath
sperm tail fibrous sheath, intermediate filament, monoclonal antibody, Triton–dithiothreitol, electron microscopy 86
Fluorescein isothiocyanate
acrosome reacted spermatozoa, follicular fluid, steroid content, progesterone 646
Fluorimetric analysis
glutathione, in-vitro developmental block, 2-cell block, preimplantation embryos, mouse 1281
Follicles
follicular fluid, antisperm antibodies, ELISA, IVF, infertility 1384
follicular fluid, cytokines, IL-2 soluble receptor, oestradiol, IVF 926
follicular fluid, cytokines, interleukin-1, progesterone, IVF–ET 462
follicular fluid, growth factors, gonadotrophins, growth hormone, polycystic ovarian disease 1347
follicular fluid, IVF, interleukins, radio-immunoassay 147
follicular fluid, oestradiol, spermatozoa, motility characteristics, linear regression analysis 665
follicular fluid, oestradiol, vitamin D_3 metabolites, IVF–ET 1357
follicular fluid, progesterone/oestradiol ratio, GnRH analogue, oocyte maturity, fertilization 479

follicular fluid, propofol, ultrasound-guided oocyte retrieval, IVF 1422
follicular fluid, sperm preparation, swim-up, zona-free hamster egg penetration test 255
follicular fluid, steroid content, progesterone, acrosome reacted spermatozoa 646
follicular maturation, androgen receptor, immunohistochemical localization 184
folliculogenesis, clomiphene citrate, HMG, GnRH antagonist 344
mathematical forecasting, bi-exponential model, menopause prediction 1342
multiple follicles, pulsatile GnRH, intravenous versus subcutaneous route 754
preovulatory follicular fluid, inhibin, steroid binding protein, free steroids, IVF–ET 765

FSH
chromatofocusing, FSH isoforms, charge heterogeneity, in-vitro biopotency, pituitary glycoprotein 23
FSH:LH ratio, granulosa cells, thymidine incorporation, oestradiol-17β 1073
granulosa cells, cAMP, aromatase, rat, HCG 191
low-dose gonadotrophin, polycystic ovary, ovarian hyperstimulation syndrome, pregnancy 1085
male factor infertility, endocrine radioimmunoassays, IVF 1067
pulsatile LH, prolactin, lactational amenorrhoea 951
urinary FSH, FSH isoforms, chromatofocusing, charge heterogeneity 1371

Galactorrhoea
prolactin, thyrotrophin-releasing hormone, pituitary dynamic tests, infertility 912

Gender screening
preimplantation embryos, polymerase chain reaction, multiplex amplification, amelogenin, DYZ1 1304

GIFT
assisted medical procreation, world collaborative report, IVF–ET 362
assisted reproductive technology, clomiphene citrate, pregnancy failure, abortion, IVF 1154
hydatidiform mole, coexisting fetus, twin pregnancy, case report 568
IVF, intrauterine insemination, infertility, pregnancy rate 490
IVF–ET, buserelin, HMG, pregnancy, inhibin 1195
natural progesterone supplement, early pregnancy, luteal phase defect, GnRH agonist 168
older aged women, ovarian response, pregnancy 1106
ovarian hyperstimulation syndrome, dopamine, peripheral infusion 180
ovarian torsion, predisposing factors 967
pregnancy, biochemical pregnancy, endometrial thickness, GIFT, tubal embryo transfer 418
pregnancy, heterotopic pregnancy, combined pregnancy, assisted reproductive techniques 131
sperm DNA status, sperm normal morphology, Acridine Orange test, fertilization *in vitro*, IVF 242
unexplained infertility, artificial insemination by donor, ovarian stimulation 1235

β-Globin
polymerase chain reaction, blastomeres, preimplantation diagnosis 630

Glutathione
fluorimetric analysis, preimplantation embryos, in-vitro developmental block, 2-cell block, mouse 1281

GnRH
pulsatile GnRH, intravenous versus subcutaneous route, multiple follicles 754

GnRH agonist
buserelin, IVF, embryo quality, supernumerary embryos 1098
buserelin, ovarian hyperstimulation syndrome, HCG, IVF 1090
buserelin/HMG, desensitization versus flare-up protocol, gonadotrophins, LHRH stimulation test, luteal phase 1225
Decapeptyl (DTrp6), progestagen pre-treatment, norethisterone, short protocol, IVF–ET 1079
leuprolide acetate, IVF–ET, luteal support, HCG versus i.m. progesterone, pregnancy 487
luteal phase defect, natural progesterone supplement, early pregnancy, IVF 168
superovulation, ovarian hyperstimulation syndrome, polycystic ovarian disease, HMG, IVF 320

GnRH analogue
HCG, ovarian hyperstimulation syndrome, androstenedione, testosterone, sex hormone-binding globulin 918
progesterone/oestradiol ratio, follicular fluid, oocyte maturity, fertilization, IVF–ET 479
uterine myomata, CA 125, immunoradiometric assay, GnRH therapy versus hysterectomy 35

GnRH antagonist
Nal-Glu, gonadotrophins, luteinizing hormone, LH surge, IVF 930
Nal-Glu, stimulated cycles, folliculogenesis, clomiphene citrate, HMG 344

Gonadotrophins
androgens, oestrogen, polycystic ovary syndrome, number of microcysts 1201
clomiphene citrate, endometrial stromal sarcoma, IVF, case report 72
exogenous gonadotrophins, ovulation induction, adverse effects, polycystic ovarian syndrome, pregnancy 213
GnRH analogue, ovarian stimulation protocols, high responders, IVF 19
intravenous pulsatile administration, intramuscular administration, oocyte quality, endometrial receptivity, IVF 176
IVF, GnRH antagonist, Nal-Glu, LH surge 930
low density lipoprotein, culture media, progesterone, human granulosa cells, corpus luteum function 12
low oestradiol, enzyme deficiency, steroid replacement, IVF 606
low-dose gonadotrophin, FSH, polycystic ovary, ovarian hyperstimulation syndrome, pregnancy 1085
luteal phase, LHRH stimulation test, GnRH agonist, buserelin/HMG, desensitization versus flare-up protocol 1225
luteinizing hormone, LH surge, exogenous oestrogen, oestradiol benzoate, positive feedback effect 469
oestradiol, ovarian hyperstimulation syndrome, IVF 597

Goserelin
Zoladex, LHRH agonist, uterine fibroids (leiomyomata), medroxyprogesterone acetate 328

Granulosa cells
culture, stimulation protocol, progesterone, polycystic ovarian syndrome 592
culture medium, FSH, HCG, cAMP, rat 191
polycystic ovarian disease, oestrogen, progesterone, FSH, tissue culture 293
RNA hybridization, biotinylated growth hormone, growth hormone receptors, steroidogenesis 1205
thymidine incorporation, oestradiol-17β, FSH:LH ratio 1073

Granulosa–luteal cells
IVF, insulin-like growth factor-1, α-aminoisobutyric acid, IGF-binding protein 1094
stimulation protocol, progesterone, polycystic ovarian syndrome 592

Growth hormone
biotinylated growth hormone, RNA hybridization, growth hormone receptors, granulosa cells, steroidogenesis 1205
HMG, insulin-like growth factor-1, ovulation induction, IVF 770

Growth hormone receptors
biotinylated growth hormone, RNA hybridization, granulosa cells, steroidogenesis 1205

Growth hormone-releasing factor
chromosome anomalies, aneuploidy, mouse zygotes 1394

Hamster egg test
spermatozoa, separation techniques, Nycodenz, Percoll, cryopreservation 654

HCG
GnRH analogue, ovarian hyperstimulation syndrome, androstenedione, testosterone, sex hormone-binding globulin 918
granulosa cells, cAMP, aromatase, rat, FSH 191
immunoassay, monoclonal antibodies, specificity, ELISA, pregnancy tests 701
luteal phase support, corpus luteum, ovarian hyperstimulation syndrome, pregnancy 758
luteal phase support, ovarian stimulation, progesterone, IVF 333
ovarian hyperstimulation syndrome, GnRH agonist, buserelin, IVF 1090
placental explants, superfusion culture, embryo–placenta relationship, maternal medication 300
placental proteins, mRNA expression, early embryonic failure, pregnancy 1474
PPI4, implantation, early pregnancy, IVF–ET 128
pregnancy, artificial insemination by donor, Fallopian tube, sperm perfusion, frozen–thawed semen 806
pregnancy, assisted human reproduction, fraud conviction 897
pregnancy specific β1-glycoprotein, inhibin, pre-embryos, IVF 545

progesterone, early pregnancy failure, ectopic pregnancy, spontaneous abortion, hormonal monitoring 711
pulsatile HCG, placental explants, superfusion culture, polycyclic aromatic hydrocarbons, benzo[*a*]pyrene 305
serial HCG, progesterone, receiver operating characteristics, ectopic pregnancy, intrauterine pregnancy 723
spontaneous HCG, pulsatility, placental explants, superfusion culture 1022
trophoblast tissue cultures, ectotopic pregnancy, intrauterine pregnancy, methotrexate 311

βHCG
doubling time, multiple pregnancy, ectopic pregnancy 1176

Heat shock proteins
hsp 70, monoclonal antibodies, immunohistochemical localization, spermatozoa 637

HMG
buserelin, pregnancy, inhibin, IVF–ET, GIFT 1195
clomiphene citrate, cervical factor, intrauterine insemination, pregnancy, abortion 801
clomiphene citrate, ovulation induction, bilateral versus unilateral ovulation, ipsilateral versus contralateral ovulation, sonography 475
clomiphene citrate, stimulated cycles, folliculogenesis, GnRH antagonist, Nal-Glu 344
controlled ovarian stimulation, leuprolide acetate, short versus long protocol, IVF–ET 31
growth hormone, insulin-like growth factor-1, ovulation induction, IVF 770
intravenous pulsatile administration, intramuscular administration, oocyte quality, endometrial receptivity, IVF 176
ovarian stimulation, consecutive cycles 940
progestagen pre-treatment, norethisterone, GnRH agonist, Decapeptyl (DTrp6), IVF–ET 1079
superovulation, ovarian hyperstimulation syndrome, polycystic ovarian disease, GnRH agonists, IVF 320

Hormone replacement therapy
endometrium, placental protein 14 1042

Human β-globin gene
transgenic mouse model, polymerase chain reaction, biopsied trophectoderm cells, preimplantation diagnosis, embryos 1297

Human fetus
severe immunodeficiency disease, thalassemia, fetal liver transplantation, in-utero transplantation, stem cells 44

Human granulosa cells
culture, gonadotrophins, low density lipoprotein, corpus luteum function, progesterone 12

Human Reproduction
journal scope, manuscript submission, early years 289

Human skin fibroblasts
co-culture, spermatozoa, mouse embryos, IVF 852

Hyaluronidase
oocyte–cumulus complex, extracellular matrix, ruthenium red, fertilization 391

Hydatidiform mole
coexisting fetus, twin pregnancy, GIFT, case report 568
preimplantation diagnosis, embryos, syngamy, pronuclei 994

Hypo-osmotic swelling test
Percoll, Sephadex, swim-up 109
sperm fertility, swim-up preparation, intrauterine insemination, fertilization 1264
sperm mucus penetration test, prognostic value, sperm progressive motility 1240

Hysterosalpingography
IVF–ET, hysteroscopy, diagnostic hysteroscopy 1433

Hysteroscopy
diagnostic hysteroscopy, IVF–ET, hysterosalpingography 1433
intrauterine adhesions, IVF 483

IgA
antisperm antibodies, sperm–mucus interaction, immunobead test, mixed antiglobulin reaction 780

IL-2 soluble receptor
periovulatory follicles, follicular fluid, oestradiol, IVF, interleukin-2 926

Immunoassay
ELISA, specificity, monoclonal antibodies, HCG, pregnancy tests 701

Immunobead test
mixed antiglobulin reaction, IgA, antisperm antibodies, sperm–mucus interaction 780

Immunocytochemistry
CalBP-52, calcium-binding protein, spermatozoa 500
spermatozoa, leukocytes, phagocytosis 517

Immunoglobulin
intravenous immunoglobulin, pregnancy, recurrent abortion, C3 neodeterminants, complement 718

Immunohistochemical localization
androgen receptor, follicular maturation, ovary 184

Immunohistochemistry
histoscore, endometrium, steroid receptors, rabbit model, pregnancy 73
polyclonal antibody, CuZn-superoxide dismutase, male genital organs, spermatogenesis, human 81
progesterone receptor, decidualized endometrium, early pregnancy 123
secretory component, endometrium, multiple follicular stimulation 6

Immunomagnetic microspheres
endometrium, endometrial stroma, glandular epithelium, culture medium, cell purification 156

Immunoperoxidase staining
monoclonal antibodies, tissue antigens, integrin, endometrium 876

Immunoradiometric assay
CA 125, uterine myomata, GnRH analogue, GnRH therapy versus hysterectomy 35

Immunotherapy
alternative therapies, endometriosis, unexplained infertility 821

Implantation
embryos, intra-endometrial embryo transfer, pregnancy, mouse 681
PPI4, HCG, early pregnancy, IVF–ET 128
Turner's syndrome, endometrial biopsy, epithelial tight junctions 883
zona-drilled embryos, zona thickness, elevated basal FSH, maternal age, IVF 685

In-vitro developmental block
2-cell block, preimplantation embryos, glutathione, fluorimetric analysis, mouse 1281

Indirect immunofluorescence
acrosome, polyclonal antibodies, fertilization, IVF 841

Infertility
antisperm antibodies, follicular fluid, IVF, ELISA 1384
assisted reproduction, French Health Service 1335
assisted reproductive techniques, DIPI, sperm count, pregnancy rate 66
asthenozoospermia, acrosome reaction, spermatozoa, ionophore 991
azoospermia, intrauterine insemination, donor insemination, pregnancy 351
cervical mucus hostility, intrauterine insemination, slow release treatment, bolus treatment 227
chlamydia-specific IgA, antibiotic treatment, serology 621
direct intraperitoneal insemination, ovarian stimulation, clomiphene citrate/HMG, hormone levels, pregnancy 813
dysmenorrhoea, dyspareunia, endometriosis 627
galactorrhoea, prolactin, pituitary dynamic tests, thyrotrophin-releasing hormone 912
idiopathic infertility, partial zona dissection, micromanipulation, IVF 537
infertility diagnosis, aged oocytes, cryopreservation, spermatozoa, fertilization 671
intrauterine insemination, superovulation, IVF, GIFT, pregnancy rate 490
IVF, anxiety, counselling, assisted reproductive technology 208
IVF, contraceptive research, Editorial 1183
IVF, male factor, sperm morphology, sperm progressive motility 1136
luteal phase, endometrial biopsy 973
male factor infertility, endocrine radioimmunoassays, FSH, IVF 1067
male infertility, antisperm antibodies, antisperm autoantibodies, Percoll gradient centrifugation, spermatozoa 959
male infertility, corticosteroid immunosuppression, antisperm antibodies, mixed antiglobulin reaction, tray agglutination test 99
male infertility, failed fertilization, Andriol, testosterone undecanoate, IVF 267
male infertility, female infertility, treatment effectiveness, cumulative pregnancy rate, assisted conception 785
male infertility, sperm preparation, Percoll, mini- Percoll, IVF 261
male infertility, tubal infertility, oocytes, embryos, pregnancy 218
microbial colonization, sperm–mucus interaction 612
oocyte donors, demographic analysis 726
oocyte recipients, hormone replacement therapy, maternal age, uterine ageing, pregnancy 733
ovarian stimulation, HMG, consecutive cycles 940
risk factors, male, female, case-control 55
semen analysis, therapeutic donor insemination, infertility therapy evaluation, pregnancy 1388

semen parameters, hormone stimulation tests, alcohol, smoking, infertility 830
serological screening, syphilis, HIV 970
tubal infertility, selective salpingography 1425
tubal surgery, IVF, cost-effectiveness analysis 982
unexplained infertility, artificial insemination by donor, GIFT, ovarian stimulation 1235
unexplained infertility, immunotherapy, alternative therapies, endometriosis 821
unexplained infertility, oestradiol, embryos, fertilization rate, IVF 223
Y;13 translocation, meiotic analysis 1118

Inhibin
pre-embryos, HCG, pregnancy specific β1-glycoprotein, IVF 545
pregnancy, buserelin, HMG, IVF–ET, GIFT 1195
pulsatility, circhoral fluctuations, gonadotrophins, progesterone, oestradiol 337
steroid binding protein, free steroids, preovulatory follicular fluid, ovarian stimulation, IVF–ET 765
tonic secretion, circhoral fluctuations, gonadotrophins, progesterone, oestradiol 337

Insulin
insulin sensitivity, glucose effectiveness, polycystic ovarian syndrome 922
polycystic ovary syndrome, anovulation, insulin-like growth factor-1, IGF binding protein-1, LH 1379

Insulin-like growth factor-1
granulosa–luteal cells, α-aminoisobutyric acid, IGF- binding protein, IVF 1094
IGF binding protein-1, polycystic ovary syndrome, anovulation, insulin, LH 1379
IVF, growth hormone, HMG, ovulation induction 770

Integrin
tissue antigens, endometrium, monoclonal antibodies, immunoperoxidase staining 876

Interceed
surgical adjuvant, laparoscopic pelvic surgery 1141

Interferon
interleukin-1, steroidogenesis, cytokine, tumour necrosis factor 1361

Interleukin receptor antagonist
transforming growth factor-α, reverse transcription–polymerase chain reaction, interleukins, cytokines, endometrium 1214

Interleukin-1
interferon, cytokine, tumour necrosis factor, steroidogenesis 1361
progesterone, follicular fluid, IVF–ET 462

Interleukin-2
IL-2 soluble receptor, periovulatory follicles, follicular fluid, oestradiol, IVF 926

Interleukins
IL-1, IL-2, follicular fluid, radio-immunoassay, IVF 147

Intratubal insemination
ectopic pregnancy, methotrexate, single-dose parenteral administration 1457

Intrauterine insemination
cervical factor, HMG, clomiphene citrate, pregnancy, abortion 801
donor insemination, azoospermia, pregnancy, artificial insemination 351
ovulation prediction, urinary LH, LH surge, LH test 751
slow release treatment, bolus treatment, cervical mucus hostility, infertility 227
sperm fertility, swim-up preparation, hypo-osmotic swelling test 1264
superovulation, pregnancy rate, IVF, GIFT 490

Ionophore
A23187, spermatozoa, acrosome reaction, asthenozoospermia 991
calcium ionophore, A23187, hamster oocytes, pronuclear formation, egg activation 871

Isthmic ectopic pregnancy
conservative laparoscopy, Triton mono-polar electrode, prognosis 422

IVF
acrosome-free spermatozoa, subzonal insemination, fertilization rate, oocytes, cleavage rate 248
antisperm antibodies, follicular fluid, infertility, ELISA 1384
assisted reproductive techniques, India, opinion 49
assisted reproductive technology, clomiphene citrate, pregnancy failure, abortion, GIFT 1154
assisted reproductive technology, rhesus monkey 1035
buserelin, LHRH agonist, oestradiol, ovarian cysts 776
Chlamydia trachomatis, mycoplasmas, Pap smear, hysterosalpingography, intrauterine adhesions 483
chromosomal abnormalities, oocytes, cryopreservation, mouse 76
clomiphene citrate, gonadotrophins, endometrial stromal sarcoma, case report 72
co-culture, human skin fibroblasts, sperm motility, mouse embryos 852
cost-effectiveness analysis, tubal surgery, infertility 982
embryo quality, supernumerary embryos, GnRH agonist, buserelin 1098
embryo transfer, fibrin sealant, aprotinin, pregnancy 890
embryonic development, platelet activating factor, culture media, radioimmunoassay 1435
embryos, oviductal cell co-culture, scientific evaluation 1339
endometrial receptivity, oestradiol valerate, progesterone, cryopreserved embryos 1353
endometrium, secretory component, morphology, multiple follicular stimulation 6
failed fertilization, male infertility, Andriol, testosterone undecanoate 267
fertilization failure, donor oocytes, donor spermatozoa 978
fertilization failure, subzonal insemination, micromanipulation, spermatozoa 1407
follicular fluid, interleukins, IL-1, IL-2, radioimmunoassay 147
GIFT, intrauterine insemination, infertility, pregnancy rate 490
GnRH agonist, buserelin, HCG, ovarian hyperstimulation syndrome 1090
GnRH analogue, ovarian stimulation protocols, gonadotrophins, high responders 19
GnRH antagonist, Nal-Glu, gonadotrophins, LH surge 930
GnRH antagonist, Nal-Glu, gonadotrophins, LH surge 930
gonadotrophins, intravenous pulsatile administration, intramuscular administration, oocyte quality, endometrial receptivity 176
granulosa–luteal cells, insulin-like growth factor-1, α-aminoisobutyric acid, IGF-binding protein 1094
growth hormone, HMG, insulin-like growth factor-1, ovulation induction 770
hamster oocytes, spermatozoa, chromosome abnormalities, Robertsonian translocation, meiotic segregation 825
inadvertent GnRH, spontaneous pregnancy, corpus luteum, hormonal profile 465
infertility, anxiety, counselling, assisted reproductive technology 208
infertility, contraceptive research, Editorial 1183
infertility, unexplained infertility, fertilization rate, oestradiol, embryos 223
Kallmann's syndrome, pregnancy, ZIFT 1268
linear regression analysis, spermatozoa, motility characteristics, follicular fluid, oestradiol 665
luteal phase, progesterone, endometrial thickness, oestradiol 1210
luteal phase support, HCG, progesterone, ovarian stimulation 333
male factor, sperm morphology, sperm progressive motility, IVF 1136
male factor infertility, endocrine radioimmunoassays, FSH 1067
male infertility, sperm preparation, Percoll, mini- Percoll, swim-up 261
medical complications, ovarian hyperstimulation syndrome 625
natural progesterone supplement, early pregnancy, luteal phase defect, GnRH agonist 168
oestradiol, gonadotrophins, ovarian hyperstimulation syndrome 597
oocyte donation, fertilization 1103
oocytes, embryos, cytogenetic analysis, chromosome abnormality, premature chromosome condensation 230
ovarian hyperstimulation syndrome, dopamine, peripheral infusion 180
ovarian hyperstimulation syndrome, subclavian vein thrombosis, case report 370
oviductal cell co-culture, embryo development 1144
partial zona dissection, infertility, micromanipulation, assisted fertilization 537
periovulatory follicles, follicular fluid, interleukin-2, IL-2 soluble receptor, oestradiol 926
pre-embryos, α-immunoreactive inhibin, HCG, pregnancy specific β1-glycoprotein 545
pregnancy, biochemical pregnancy, endometrial thickness, GIFT, tubal embryo transfer 418
pregnancy, luteal support, LHRH agonist, buserelin 1222
recurrent ectopic pregnancy, case report 1479
severe sperm defect, swim-across technique, follicular fluid 1121
singleton babies, preterm delivery, low birthweight, small-for-gestational age, multiple regression analysis 425
sperm DNA status, sperm normal morphology, Acridine Orange test, fertilization *in vitro*, GIFT 242
sperm parameters, acrosome, polyclonal antibodies, indirect immunofluorescence, fertilization 841

sperm preparation, Percoll gradients, swim-up, pregnancy 399
spermatozoa, acrosomes, pro-acrosin, monoclonal antibody, capacitation 1249
spermatozoa, embryonic development, mouse, human 1010
spermatozoa, sperm preparation, asthenozoospermia, epididymis, ZIFT 838
steroid replacement, gonadotrophins, low oestradiol, enzyme deficiency 606
steroid-binding proteins, free steroids, androgens 1365
superovulation, GnRH agonists, ovarian hyperstimulation syndrome, polycystic ovarian disease, HMG 320
superovulation, oocytes, chromosomal aneuploidy, meiotic non-disjunction 1396
vaginal sonography, endometrial thickness, endometrial pattern, oestradiol, progesterone 677
zona-drilled embryos, zona thickness, elevated basal FSH, maternal age, implantation 685

IVF–ET
assisted medical procreation, GIFT, world collaborative report 362
conception versus non-conception cycles, stimulated versus unstimulated cycles, protein profiles, placental protein 14 585
controlled ovarian stimulation, HMG, leuprolide acetate, short versus long protocol 31
cumulative embryo score, pregnancy, multiple pregnancy 117
cytokines, interleukin-1, tumour necrosis factor, progesterone, follicular fluid 462
ectopic pregnancy, contralateral Fallopian tube, case report 136
embryos, socio-economic factors, cigarette smoking 358
fertilization, oocytes, cryopreservation, cold shock 1447
GIFT, buserelin, HMG, pregnancy, inhibin 1195
GnRH agonist, leuprolide acetate, luteal support, HCG versus i.m. progesterone 487
hysteroscopy, diagnostic hysteroscopy, hysterosalpingography 1433
implantation, early pregnancy, PPI4, HCG 128
National IVF Registry, Israel, IVF perinatal outcome, assisted reproductive technology 1159
neoplastic disease, spermatozoa, cryopreservation 105
oestradiol, vitamin D_3 metabolites, follicular fluid 1357
oocyte maturity, fertilization, follicular fluid, progesterone/oestradiol ratio, GnRH analogue 479
oocytes, embryos, infertility, male infertility, tubal infertility 218
ovarian stimulation, inhibin, steroid binding protein, free steroids, preovulatory follicular fluid 765
progestagen pre-treatment, norethisterone, GnRH agonist, short protocol, HMG 1079
transvaginal oocyte retrieval, appendicitis, case report 850
vaginal disinfection, Betadine, saline, fertilization rate, pregnancy 349

Kallmann's syndrome
IVF, pregnancy, ZIFT 1268

Lactational amenorrhoea
pulsatile LH, prolactin, FSH 951

Laparoscopy
adnexal cysts, ovarian surgery, ovarian non-closure, fertility 529
conservative laparoscopy, Triton mono-polar electrode, isthmic ectopic pregnancy, prognosis 422
laparoscopic pelvic surgery, surgical adjuvant, Interceed 1141
teratoma, dermoid tumour 1429

Leukocytes
leukocyte subpopulations, marker antigens, monoclonal antibody, cytokines, corpus luteum 197

Leupeptin
protease inhibitor, cortical granule exocytosis, calcium ionophore, mouse oocytes, fertilization 1004

Leuprolide acetate
GnRH agonist, IVF–ET, luteal support, HCG versus i.m. progesterone, pregnancy 487
short versus long protocol, controlled ovarian stimulation, HMG, IVF–ET 31

LH
anovulation, polycystic ovary syndrome, insulin-like growth factor-1, IGF binding protein-1, insulin 1379
FSH:LH ratio, granulosa cells, thymidine incorporation, oestradiol-17β 1073

LHRH
D-Trp-6-LHRH, depot administration, standard versus half-doses, pituitary desensitization 1230

LHRH agonist
buserelin, luteal support, pregnancy, IVF 1222
buserelin, oestradiol, ovarian cysts, IVF 776
$DTRP^6$, inadvertent GnRH, spontaneous pregnancy, corpus luteum 465
$DTRP^6$, inadvertent GnRH, spontaneous pregnancy, IVF 465
goserelin, Zoladex, uterine fibroids (leiomyomata), medroxyprogesterone acetate 328

Luteal phase
endometrial biopsy, infertility 973
endometrial thickness, histological dating, clomiphene citrate, ultrasonography 1
LHRH stimulation test, gonadotrophins, GnRH agonist, buserelin/HMG, desensitization versus flare-up protocol 1225
luteal phase defect, GnRH agonist, natural progesterone supplement, early pregnancy, IVF 168
luteal phase supplementation, progesterone, endometrial thickness, oestradiol, IVF 1210
luteal phase support, corpus luteum, HCG, ovarian hyperstimulation syndrome, pregnancy 758
luteal phase support, HCG, progesterone, ovarian stimulation, IVF 333
luteal support, HCG versus i.m. progesterone, IVF–ET, pregnancy 487

Luteinizing hormone
LH surge, exogenous oestrogen, oestradiol benzoate, positive feedback effect 469
LH surge, gonadotrophins, GnRH antagonist, Nal-Glu, IVF 930
pulsatile LH, breastfeeding, lactational amenorrhoea 951
urinary LH, LH surge, LH test, ovulation prediction, intrauterine insemination 751
urinary LH, ovulation prediction, donor insemination, pregnancy 63

Maternal medication
embryo–placenta relationship, placental explants, superfusion culture, HCG 300

Mathematical forecasting
bi-exponential model, menopause prediction, follicles 1342

Medroxyprogesterone acetate
progesterone, fibronectin, fibronectin mRNA, endometrial stroma, progestin 141

Meiotic spindle
spindle morphology, mouse oocytes, cryopreservation, slow versus ultra-rapid freezing, microtubules 857

Menopause
oestrogen replacement therapy, female hormones, oral contraceptives, coronary disease 162

Menotrophins
ovarian stimulation, consecutive cycles 940

Methotrexate
ectopic pregnancy, chemical curettage, case report 1027
ectopic pregnancy, interstitial pregnancy, non-surgical management, HCG serum level 1164
single-dose parenteral administration, ectopic pregnancy, intratubal insemination 1457
trophoblast tissue cultures, ectotopic pregnancy, intrauterine pregnancy, HCG 311

Microcysts
number of microcysts, polycystic ovary syndrome, androgens, oestrogen, gonadotrophins 1201

Microfilaments
microtubules, oocytes, cryopreservation, 1,2- propanediol, mouse 374

Micromanipulation
oocytes, plasma membrane, zona pellucida, microvilli 999
oocytes, subzonal insemination, spermatozoa, fertilization failure, IVF 1407
partial zona dissection, infertility, IVF, assisted fertilization 537
zona drilling, cruciate zona drilling, blastocyst hatching, mouse 532
zona-drilled embryos, zona thickness, elevated basal FSH, maternal age, implantation 685

Microtubules
meiotic spindle, spindle morphology, mouse oocytes, cryopreservation, slow versus ultra-rapid freezing 857
microfilaments, oocytes, cryopreservation, 1,2-propanediol, mouse 374

Mifepristone—see RU 486

Mixed antiglobulin reaction
immunobead test, IgA, antisperm antibodies, sperm–mucus interaction 780
tray agglutination test, antisperm antibodies, male infertility, corticosteroid immunosuppression 99
Monoclonal antibodies
electron microscopy, sperm tail fibrous sheath, intermediate filament, Triton–dithiothreitol 86
heat shock proteins, hsp 70, immunohistochemical localization 637
leukocyte subpopulations, marker antigens, cytokines, corpus luteum 197
immunoperoxidase staining, tissue antigens, integrin 876
oestrogen receptor-related antigen, endometrium, quantitative microphotometry 151
pro-acrosin, acrosomes, capacitation, IVF 1249
specificity, HCG, pregnancy tests, immunoassay, ELISA 701
Mother–child relationship
triplets, maternal well-being, psychosocial aspects 729
Mouse model
embryos, 2-cell block, anisomycin, protein synthesis inhibitor 1291
mRNA
cytokines, interleukins, interleukin receptor antagonist, transforming growth factor-α, endometrium 1214
Multifetal pregnancy
ovulation induction, embryo reduction 1173
Multiple exposure photography
sperm motility, indoleamines 987
Multiple regression analysis
IVF, singleton babies, prematurity 425
Multivariate statistical analysis
sperm motility, cervical mucus, hyperactivation 1402
Myo-inositol
DNA synthesis, protein synthesis, blastocyst expansion, rabbit 550

Nal-Glu
GnRH antagonist, gonadotrophins, luteinizing hormone, LH surge, IVF 930
GnRH antagonist, stimulated cycles, folliculogenesis, clomiphene citrate, HMG 344
Neoplastic disease
spermatozoa, cryopreservation, IVF–ET 105
Norethisterone
progestagen pre-treatment, GnRH agonist, HMG, IVF–ET 1079
Nuclear magnetic resonance spectroscopy
cervical mucus, rheology 915
Nycodenz
spermatozoa, separation techniques, cryopreservation, hamster egg test 654

Oestradiol
embryonic histamine-releasing factor, uterine mast cell, rat 1036
endometrial thickness, luteal phase supplementation, progesterone, IVF 1210
follicular fluid, linear regression analysis, spermatozoa, motility characteristics, IVF 665
follicular fluid, vitamin D_3 metabolites, IVF–ET 1357
gonadotrophins, ovarian hyperstimulation syndrome, IVF 597
infertility, unexplained infertility, fertilization rate, embryos, IVF 223
interleukin-2, IL-2 soluble receptor, periovulatory follicles, follicular fluid, IVF 926
IVF, ovarian cysts, buserelin, LHRH agonist 776
low oestradiol, enzyme deficiency, steroid replacement, IVF 606
oestradiol-17β, granulosa cells, thymidine incorporation, FSH:LH ratio 1073
oestradiol benzoate, exogenous oestrogen, LH surge, positive feedback effect 469
progesterone, endometrial thickness, endometrial pattern, vaginal sonography, IVF 677
pulsatility, circhoral fluctuations, gonadotrophins, progesterone, oestradiol 337
RU 486, progesterone antagonist, uterine sepsis, rat 601
Oestradiol valerate
progesterone, endometrial receptivity, cryopreserved embryos, IVF 1353
Oestradiol/progesterone ratio
conception versus non-conception cycles, frozen–thawed pre-embryos, pregnancy 797
Oestrogen
androgens, gonadotrophins, number of microcysts, polycystic ovary syndrome 1201
granulosa cells, polycystic ovarian disease, tissue culture, culture medium, progesterone 293
Oestrogen receptor
decidua, early pregnancy, progesterone receptor, RU 486 934
Oestrogen receptor-related antigen
monoclonal antibody, endometrial stroma, glandular epithelium, quantitative microphotometry 151
Oestrogen replacement therapy
menopause, female hormones, oral contraceptives, coronary disease 162
Oligomenorrhoea
hormonal dynamics, follicular development, cervical mucus, ovulation induction, cyclofenil 39
Oocyte–cumulus complex
extracellular matrix, ruthenium red, hyaluronidase, fertilization 391
Oocytes
β-*N*-acetylhexosaminidase, preimplantation embryos, Tay–Sachs disease, Sandhoff disease 1278
aged oocytes, cryopreservation, spermatozoa, infertility diagnosis, fertilization 671
chromosomal aneuploidy, meiotic non-disjunction, superovulation, IVF 1396
cleavage rate, subzonal insemination, acrosome-free spermatozoa, fertilization rate, IVF 248
cryopreservation, cold shock, fertilization, IVF-ET 1447
cryopreservation, cytogenetic analysis, chromosomal abnormalities, IVF, mouse 76
cryopreservation, fetal bovine serum, calcium ionophore, zona hardening, mouse 408
cryopreservation, 1,2-propanediol, microtubules, microfilaments, mouse 374
donor oocytes, donor spermatozoa, fertilization failure, IVF 978
dysmorphic oocytes, aneuploidy, cytogenetic studies, ovarian stimulation, assisted reproduction 379
embryos, cytogenetic analysis, chromosome abnormality, premature chromosome condensation, IVF 230
embryos, infertility, pregnancy, IVF–ET 218
germinal vesicle-stage oocytes, cryopreservation, in- vitro maturation, spindle morphology, mouse 1440
hamster oocytes, A23187, calcium ionophore, pronuclear formation, egg activation 871
hamster oocytes, spermatozoa, chromosome abnormalities, Robertsonian translocation, IVF 825
mouse oocytes, cortical granule exocytosis, calcium ionophore, leupeptin, protease inhibitor 1004
mouse oocytes, cryopreservation, slow versus ultra-rapid freezing, microtubules, spindle morphology 857
oocyte–cumulus complex, extracellular matrix, ruthenium red, hyaluronidase, fertilization 391
oocyte donation, anonymous donors, psychological evaluation, assisted reproductive techniques 51
oocyte donation, donor subpopulation, selectivity, pregnancy 59
oocyte donation, embryonic implantation, hormone replacement therapy 1111
oocyte donation, IVF, fertilization 1103
oocyte donation, oocyte recipient, attitudes, psychological attitude 355
oocyte donors, infertility, demographic analysis 726
oocyte donors, semen donors, psychological evaluation 575
oocyte maturity, progesterone/oestradiol ratio, follicular fluid, fertilization, IVF–ET 479
plasma membrane, zona pellucida, microvilli, micromanipulation, scanning electron microscopy 999
subzonal insemination, spermatozoa, fertilization failure, IVF 1407
transvaginal oocyte retrieval, appendicitis, IVF–ET, case report 850
ultrasound-guided oocyte retrieval, propofol, follicular fluid, IVF 1422
zona-free oocytes, fertilization, embryos, mouse 281
Oral contraceptives
female hormones, menopause, oestrogen replacement therapy, coronary disease 162
Ovary
controlled ovarian stimulation, HMG, leuprolide acetate, short versus long protocol, IVF–ET 31
follicular maturation, androgen receptor, immunohistochemical localization 184
oocyte–embryo donation, embryonic implantation, hormone replacement therapy 1111
ovarian activity, bromocriptine, post-partum application, ultrasonography 746

ovarian biopsy, surface epithelium, stereology, transmission electron microscopy 446
ovarian cyst, endometriotic cyst, CA 125, corpus luteum 1314
ovarian cysts, buserelin, LHRH agonist, oestradiol, IVF 776
ovarian follicles, menopause prediction, bi-exponential model 1342
ovarian hyperstimulation syndrome, androstenedione, testosterone, sex hormone-binding globulin, HCG 918
ovarian hyperstimulation syndrome, buserelin, pituitary suppression, embryos, cryopreservation 962
ovarian hyperstimulation syndrome, dopamine, peripheral infusion, IVF, GIFT 180
ovarian hyperstimulation syndrome, GnRH agonist, buserelin, HCG, IVF 1090
ovarian hyperstimulation syndrome, gonadotrophins, oestradiol, IVF 597
ovarian hyperstimulation syndrome, low-dosage dopamine, Letter 1181
ovarian hyperstimulation syndrome, luteal phase support, HCG, pregnancy 758
ovarian hyperstimulation syndrome, medical complications, IVF 625
ovarian hyperstimulation syndrome, polycystic ovarian disease, GnRH agonists, HMG 320
ovarian hyperstimulation syndrome, polycystic ovary, low- dose gonadotrophin, FSH, pregnancy 1085
ovarian hyperstimulation syndrome, subclavian vein thrombosis, IVF, case report 370
ovarian response, GIFT, older aged women, pregnancy 1106
ovarian steroids, steroid receptors, endometrium, peritoneal mesothelium, endometriosis 1318
ovarian stimulation, clomiphene citrate/HMG, hormone levels, pregnancy, direct intraperitoneal insemination 813
ovarian stimulation, cytoplasmic dysmorphism, aneuploidy, cytogenetic studies, assisted reproduction 379
ovarian stimulation, DIPI, sperm count, assisted reproductive techniques 66
ovarian stimulation, GIFT, unexplained infertility, artificial insemination by donor 1235
ovarian stimulation, growth hormone, HMG, insulin-like growth factor-1, IVF 770
ovarian stimulation, HMG, consecutive cycles 940
ovarian stimulation, inhibin, steroid binding protein, free steroids, IVF–ET 765
ovarian stimulation, luteal phase support, HCG, progesterone, IVF 333
ovarian stimulation, oocyte donation, donor subpopulation, selectivity, pregnancy 59
ovarian stimulation, protein profiles, placental protein 14, IVF–ET 585
ovarian stimulation protocols, gonadotrophins, high responders, IVF 19
ovarian surface epithelium, stereology, transmission electron microscopy 446
ovarian surgery, ovarian non-closure, adnexal cysts, laparoscopy 529
ovarian torsion, predisposing factors, GIFT 967
ovulation induction, cyclofenil, follicular development, cervical mucus, oligomenorrhoea 39
polycystic ovaries, hormonal pulses, endocrinopathy, ultrasonic diagnosis 458
polycystic ovaries, menstrual dysfunction, endocrinopathy, ultrasonic diagnosis 453

Ovulation
ovulation detection, ovarian activity, bromocriptine, post-partum application, ultrasonography 746
ovulation induction, bilateral versus unilateral ovulation, ipsilateral versus contralateral ovulation, sonography 475
ovulation induction, exogenous gonadotrophins, adverse effects, pregnancy 213
ovulation induction, gonadotrophins, follicular fluid, growth factors, polycystic ovarian disease 1347
ovulation induction, growth hormone, HMG, insulin-like growth factor-1, IVF 770
ovulation induction, multifetal pregnancy, embryo reduction 1173
ovulation induction, twin gestation, molar pregnancy, case report 429
ovulation inhibition, mifepristone, low-dose mifepristone 945
ovulation prediction, urinary LH, donor insemination, pregnancy 63
ovulation prediction, urinary LH, LH surge, LH test, intrauterine insemination 751
superovulation, oocytes, chromosomal aneuploidy, IVF, meiotic non-disjunction 1396

PCR in preimplantation genetic disease diagnosis
letter to the Editor, corrections 288

α-2 PEG
endometrial proteins, immunohistochemical staining, frozen embryos, endometrial receptivity, 24K 413

Pentoxifylline
phosphodiesterase inhibition, sperm motion enhancement, hyperactivation, velocity characteristics, automated sperm analysis 1257

Percoll
mini-Percoll, sperm preparation, male infertility, IVF 261

Percoll gradient, swim-up, follicular fluid, sperm preparation, zona-free hamster egg penetration test 255

Percoll gradient centrifugation, antisperm antibodies, antisperm autoantibodies, male infertility, spermatozoa 959
Percoll gradients, sperm preparation, IVF, pregnancy, swim-up 399
Sephadex, swim-up, sperm preparation techniques, hypo- osmotic swelling test 109
spermatozoa, separation techniques, cryopreservation, hamster egg test 654

Phosphodiesterase inhibition
pentoxifylline, sperm motion enhancement, hyperactivation, velocity characteristics, automated sperm analysis 1257

Pituitary desensitization
D-Trp-6-LHRH, depot administration, standard versus half-doses 1230

Pituitary glycoprotein
FSH isoforms, chromatofocusing, charge heterogeneity, in- vitro biopotency, human 23

Placenta
corpus luteum, Doppler imaging, progesterone, pregnancy 1467
decidua, androgen receptor, immunohistochemical localization, endometrium 1461
placental explants, superfusion culture, HCG, maternal medication 300
placental explants, superfusion culture, pulsatile HCG, polycyclic aromatic hydrocarbons, benzo[*a*]pyrene 305
placental explants, superfusion culture, spontaneous HCG, pulsatility 1022
placental proteins, HCG, mRNA expression, early embryonic failure 1474
placental stroma, colony-stimulating factor-1, mRNA, in- situ hybridization 563

Placental mosaicism
Editorial 139

Placental protein 14
hormone replacement therapy, endometrium 1042
ovarian stimulation, conception versus non-conception cycles, radioimmunoassay, IVF–ET 585

Platelet activating factor
culture media, radioimmunoassay, embryonic development, IVF 1435
preimplantation embryos, bioassay, radioimmunoassay, dose–response curves, mouse 865

Polyclonal antibodies
immunohistochemistry, CuZn-superoxide dismutase, male genital organs, spermatogenesis, human 81
indirect immunofluorescence, acrosome, sperm parameters, fertilization, IVF 841

Polycyclic aromatic hydrocarbons
pulsatile HCG, placental explants, superfusion culture, benzo[*a*]pyrene 305

Polycystic ovarian disease
growth factors, follicular fluid, gonadotrophins, ovulation induction 1347
hormonal pulses, endocrinopathy, ultrasonic diagnosis 458
menstrual dysfunction, endocrinopathy, ultrasonic diagnosis 453

Polycystic ovarian syndrome
anovulation, insulin-like growth factor-1, IGF binding protein-1, insulin, LH 1379
granulosa–luteal cells, stimulation protocol, progesterone 592
insulin sensitivity, glucose effectiveness 922
number of microcysts, androgens, oestrogen, gonadotrophins 1201
ovulation induction, exogenous gonadotrophins, adverse effects, pregnancy 213

Polymerase chain reaction
biopsied trophectoderm cells, human β-globin gene, preimplantation diagnosis, transgenic mouse model 1297
β-globin, blastomeres, preimplantation diagnosis 630
multiplex amplification, amelogenin, DYZ1, preimplantation embryos, gender screening 1304
preimplantation diagnosis, inherited genetic disorders 583
preimplantation genetic diagnosis, Letters to the Editor 1481

PPI4
HCG, implantation, early pregnancy, IVF–ET 128
Prednisolone
recurrent abortion, antiphospholipid antibody, aspirin, low-dose aspirin 203
Pregnancy
amniotic fluid, exocoelomic fluid, maternal serum, protein electrophoresis, ultrasonography 886
artificial insemination by donor, Fallopian tube, sperm perfusion, frozen–thawed semen, HCG 806
biochemical pregnancy, endometrial thickness, IVF, GIFT, tubal embryo transfer 418
biochemical pregnancy, hormone levels, ovarian stimulation, clomiphene citrate/HMG, direct intraperitoneal insemination 813
contraception, contraceptive pill, delayed menstruation 608
corpus luteum, Doppler imaging, progesterone, placenta 1467
cumulative pregnancy rate, infertility, treatment effectiveness, assisted conception 785
donor insemination, intrauterine insemination, azoospermia, infertility 351
donor insemination, ovulation prediction, urinary LH 63
early embryonic failure, placental proteins, HCG, mRNA expression 1474
early pregnancy, decidua, RU 486, oestrogen receptor, progesterone receptor 934
early pregnancy, PPI4, HCG, implantation, IVF–ET 128
early pregnancy failure, ectopic pregnancy, hormonal monitoring, progesterone, HCG 711
ectopic pregnancy, embryo transfer, fibrin sealant, aprotinin, IVF 890
ectopic pregnancy, falloposcopy, transcervical tubal cannulation, case report 274
ectopic pregnancy, interstitial pregnancy, non-surgical management, methotrexate 1164
ectopic pregnancy, intratubal insemination, methotrexate, single-dose parenteral administration 1457
ectopic pregnancy, intrauterine pregnancy, logistic model, prognosis 120
ectopic pregnancy, intrauterine pregnancy, prostaglandins, case report 573
ectopic pregnancy, IVF–ET, contralateral Fallopian tube, case report 136
ectopic pregnancy, methotrexate, chemical curettage, case report 1027
ectotopic pregnancy, trophoblast tissue cultures, HCG, methotrexate 311
endometriosis, rabbit model, steroid receptors, immunohistochemistry, histoscore 73
endometrium, decidualized endometrium, progesterone receptor, immunohistochemistry 123
epididymal spermatozoa, obstructive azoospermia, frozen embryos 652
frozen–thawed pre-embryos, progesterone, oestradiol/progesterone ratio, conception versus non-conception cycles, progesterone 797
HCG, fraud conviction, assisted human reproduction 897
heterotopic pregnancy, combined pregnancy, GIFT 131
HMG, clomiphene citrate, cervical factor, intrauterine insemination 801
infertility, oocytes, embryos, IVF–ET 218
inhibin, buserelin, HMG, IVF–ET, GIFT 1195
intra-endometrial embryo transfer, viability, implantation, mouse 681
intrauterine pregnancy, ectopic pregnancy, progesterone, serial HCG, receiver operating characteristics 723
intravenous immunoglobulin, recurrent abortion, complement, C3 neodeterminants 718
isthmic ectopic pregnancy, laparoscopy, conservative laparoscopy, Triton mono-polar electrode 422
IVF, GIFT, intrauterine insemination 490
IVF, Kallmann's syndrome, ZIFT, case report 1268
luteal phase support, HCG, ovarian hyperstimulation syndrome 758
luteal support, HCG versus i.m. progesterone, GnRH agonist, leuprolide acetate, IVF–ET 487
luteal support, LHRH agonist, buserelin, IVF 1222
molar pregnancy, ovulation induction, twin gestation, case report 429
multifetal pregnancy, embryo reduction, ovulation induction 1173
multiple pregnancy, cumulative embryo score, IVF–ET 117
multiple pregnancy, ectopic pregnancy, *βHCG*, doubling time 1176
multiple pregnancy, ovarian hyperstimulation syndrome, gonadotrophins, IVF 597
older aged women, ovarian response, GIFT 1106
oocyte donation, donor subpopulation, selectivity 59
oocyte recipients, hormone replacement therapy, maternal age, uterine ageing, infertility 733
ovulation induction, exogenous gonadotrophins, adverse effects, polycystic ovarian syndrome 213
polycystic ovary, ovarian hyperstimulation syndrome, low- dose gonadotrophin, FSH 1085
pregnancy failure, clomiphene citrate, assisted reproductive technology, IVF, GIFT 1154
pregnancy tests, HCG, monoclonal antibodies, specificity, immunoassay 701
recurrent ectopic pregnancy, IVF, case report 1479
sperm preparation, Percoll gradients, swim-up, IVF 399
spontaneous pregnancy, LHRH agonist, $DTRP^6$, inadvertent GnRH 465
therapeutic donor insemination, semen analysis, infertility therapy evaluation, infertility 1388
vaginal disinfection, Betadine, saline, IVF–ET 349
Pregnancy specific β1-glycoprotein
HCG, inhibin, pre-embryos, IVF 545
Preimplantation
preimplantation development, embryos, 2-cell block, taurine, mouse 403
preimplantation development, metabolism, dry mass, embryos, mouse 112
preimplantation diagnosis, β-globin, blastomeres, polymerase chain reaction 630
preimplantation diagnosis, hydatidiform mole, embryos, syngamy, pronuclei 994
preimplantation embryos, in-vitro developmental block, glutathione, fluorimetric analysis, mouse 1281
preimplantation embryos, polymerase chain reaction, multiplex amplification, gender screening 1304
Preimplantation diagnosis
human β-globin gene, biopsied trophectoderm cells, polymerase chain reaction, transgenic mouse model 1297
inherited genetic disorders, polymerase chain reaction 583
oocytes, embryos, β-N-acetylhexosaminidase, Tay–Sachs disease, Sandhoff disease 1278
polymerase chain reaction, Letters to the Editor 1481
Premature chromosome condensation
oocytes, embryos, IVF, cytogenetic analysis 230
Primates
primate reproduction, human reproduction, natural conception, seasonal mediators 734
Pro-acrosin
monoclonal antibody, acrosomes, spermatozoa, capacitation, IVF 1249
Progesterone
corpus luteum, placenta, Doppler imaging, pregnancy 1467
corpus luteum function, human granulosa cells, culture media, gonadotrophins, low density lipoprotein 12
endometrial capillaries, sub-epithelial vascularization, morphometry, biopsy 906
follicular fluid, acrosome reacted spermatozoa, fluorescein isothiocyanate 646
follicular fluid, cytokines, interleukin-1, IVF–ET 462
granulosa–luteal cells, stimulation protocol, polycystic ovarian syndrome 592
granulosa cells, polycystic ovarian disease, tissue culture, culture medium, oestrogen 293
HCG, early pregnancy failure, ectopic pregnancy, spontaneous abortion, hormonal monitoring 711
luteal phase supplementation, endometrial thickness, oestradiol, IVF 1210
luteal phase support, ovarian stimulation, HCG, IVF 333
medroxyprogesterone acetate, fibronectin, fibronectin mRNA, endometrial stroma, progestin 141
micronized progesterone, endometrial receptivity, cryopreserved embryos, IVF, oestradiol valerate 1353
oestradiol, endometrial thickness, endometrial pattern, vaginal sonography, IVF 677
oestradiol/progesterone ratio, frozen–thawed pre-embryos, conception versus non-conception cycles 797
progesterone receptor, decidua, early pregnancy, oestrogen receptor, RU 486 934
pulsatility, circhoral fluctuations, gonadotrophins, progesterone, oestradiol 337
serial HCG, receiver operating characteristics, intrauterine pregnancy, ectopic pregnancy 723
Progesterone receptor
decidualized endometrium, early pregnancy, immunohistochemistry 123
Progestin
fibronectin, fibronectin mRNA, endometrial stroma 141

fibronectin, fibronectin mRNA, endometrial stroma 141
Prolactin
galactorrhoea, thyrotrophin-releasing hormone, pituitary dynamic tests, infertility 912
pulsatile LH, FSH, lactational amenorrhoea 951
1,2-Propanediol
cryopreservation, embryos, 1-cell embryos, mouse 1451
cryopreservation, oocytes, microtubules, microfilaments, mouse 374
dimethyl sulphoxide, embryos, pronuclear age, cryopreservation 660
Propofol
IVF, ultrasound-guided oocyte retrieval, follicular fluid 1422
Prostaglandins
ectopic pregnancy, intrauterine pregnancy, case report 573
Protease inhibitor
leupeptin, cortical granule exocytosis, calcium ionophore, mouse oocytes, fertilization 1004
Protein synthesis
protein synthesis inhibitor, anisomycin, embryos, 2-cell block, mouse 1291
Psychological evaluation
oocyte donors, semen donors 575

Quantitative microphotometry
oestrogen receptor-related antigen, monoclonal antibody, endometrial stroma, glandular epithelium 151

Rabbit model
endometriosis, steroid receptors, immunohistochemistry, histoscore, pregnancy 73
Radioimmunoassay
interleukins, follicular fluid, IVF 147
placental protein 14, protein profiles, ovarian stimulation, IVF–ET 585
Receiver operating characteristics
progesterone, serial HCG, ectopic pregnancy 723
Retinoic acid
retinoic acid receptors, transcript induction, endometrium, stromal cells 692
Reverse transcription–polymerase chain reaction
mRNA, cytokines, interleukins, transforming growth factor-α, endometrium 1214
Rhesus monkey
assisted reproductive technology, IVF 1035
endometrium, epithelial plaque formation, decidual cell model, RU 486, epithelial plaque formation 1048
RNA hybridization
growth hormone receptors, biotinylated growth hormone, granulosa cells, steroidogenesis 1205
Robertsonian translocation
meiotic segregation, chromosome abnormalities, spermatozoa, hamster oocytes, IVF 825
RU 486
antiprogestin, endometrium, epithelial plaque formation, decidual cell model, rhesus monkey 1048
decidua, early pregnancy, oestrogen receptor, progesterone receptor 934
low-dose mifepristone, ovulation inhibition 945
progesterone antagonist, oestradiol, uterine sepsis, rat 601
Ruthenium red
oocyte–cumulus complex, extracellular matrix, hyaluronidase, fertilization 391

Salpingoscopy
normal women, requested sterilization, tubal lumen, morphology 269
Scanning electron microscopy
oocytes, plasma membrane, microvilli, zona pellucida 999
spermatozoa, sperm transport, Fallopian tubes, case report 506
Semen
frozen–thawed semen, Fallopian tube, sperm perfusion, HCG, pregnancy 806
semen analysis, hypo-osmotic swelling test, sperm mucus penetration test, prognostic value 1240
semen analysis, therapeutic donor insemination, infertility therapy evaluation, pregnancy 1388
semen donors, oocyte donors, psychological evaluation 575
semen parameters, hormone stimulation tests, spermiogram, alcohol, smoking 830
sperm motility, indoleamines, multiple exposure photography 987
Semen analysis
computer-assisted image analysis, sperm characteristics, inherent errors 237
Sephadex
Percoll, swim-up, sperm preparation techniques, hypo- osmotic swelling test 109
Severe immunodeficiency disease
thalassemia, human fetus, fetal liver transplantation, in-utero transplantation, stem cells 44
Sex hormone-binding globulin
androstenedione, testosterone, ovarian hyperstimulation syndrome, GnRH analogue, HCG 918
Sex preselection
male sex preselection, sex ratio 372
Sexually transmitted diseases
ESHRE recommendations, Workshop 1330
Singleton babies
preterm delivery, low birthweight, small-for-gestational age, multiple regression analysis, IVF 425
Smoking
alcohol, semen parameters, hormone stimulation tests, spermiogram, infertility 830
cigarette smoking, embryo cleavage, IVF–ET, socio-economic factors 358
Soltriol
seasonal mediators, natural conception 734
Sonography
bilateral versus unilateral ovulation, ipsilateral versus contralateral ovulation, HMG, clomiphene citrate 475
transcervical tubal catheterization, balloon tuboplasty 1271
vaginal sonography, endometrial thickness, endometrial pattern, IVF 677
Spermatozoa
aberrant spermatozoa, sperm abnormalities, ultrastructure, epididymis, *Sus domesticus* 523
abnormal spermatozoa, leukocytes, phagocytosis, immunocytochemistry 517
acrosome reacted spermatozoa, follicular fluid, steroid content, progesterone 646
acrosome reaction, ionophore, A23187, infertility 991
acrosome-free spermatozoa, fertilization rate, subzonal insemination, oocytes, cleavage rate 248
acrosomes, pro-acrosin, monoclonal antibody, capacitation, IVF 1249
adenylyl cyclase, cyclic AMP synthesis, enzyme activation, calcium, bicarbonate 1131
antisperm antibodies, antisperm autoantibodies, Percoll gradient centrifugation, male infertility 959
antisperm antibodies, cervical mucus, sperm motility, prognostic factors 95
antisperm antibodies, follicular fluid, ELISA, IVF, infertility 1384
antisperm antibodies, IgA, sperm–mucus interaction, immunobead test, mixed antiglobulin reaction 780
antisperm antibodies, mixed antiglobulin reaction, tray agglutination test, corticosteroid immunosuppression, male infertility 99
calcium-binding protein, CaIBP-52, immunocytochemistry 500
chromosome abnormalities, Robertsonian translocation, meiotic segregation, hamster oocytes, IVF 825
cryopreservation, neoplastic disease, IVF–ET 105
donor spermatozoa, donor oocytes, fertilization failure, IVF 978
embryonic development, mouse, human, IVF 1010
epididymal spermatozoa, obstructive azoospermia, pregnancy 652
fertilization, infertility diagnosis, aged oocytes, cryopreservation 671
heat shock proteins, hsp 70, monoclonal antibodies, immunohistochemical localization 637
hormone stimulation tests, spermiogram, alcohol, smoking, infertility 830
motility characteristics, follicular fluid, oestradiol, linear regression analysis, IVF 665
pentoxifylline, phosphodiesterase inhibition, sperm motion enhancement, automated sperm analysis 1257
Percoll, Sephadex, swim-up, sperm preparation techniques, hypo-osmotic swelling test 109
seminal plasma, acetylcarnitine, carnitine, cryopreservation 1245
separation techniques, Nycodenz, Percoll, cryopreservation, hamster egg test 654
severe sperm defect, swim-across technique, follicular fluid, IVF 1121
sperm–mucus interaction, microbial colonization, infertility 612
sperm binding capacity, sperm–oocyte interaction, porcine zona pellucida 1150

sperm characteristics, semen analysis, computer-assisted image analysis, inherent errors 237
sperm count, pregnancy rate, assisted reproductive techniques, DIPI 66
sperm DNA status, sperm normal morphology, Acridine Orange test, fertilization *in vitro*, IVF 242
sperm membrane, sperm function, adenylyl cyclase, cyclic AMP synthesis 1126
sperm morphology, sperm progressive motility, IVF, infertility 1136
sperm motility, cervical mucus, hyperactivation, multivariate statistical analysis 1402
sperm motility, co-culture, human skin fibroblasts, IVF 852
sperm motility, hyperactivation, computer-aided sperm analysis, digital image analysis 1417
sperm motility, indoleamines, multiple exposure photography 987
sperm parameters, acrosome, polyclonal antibodies, indirect immunofluorescence, IVF 841
sperm perfusion, Fallopian tube, artificial insemination by donor, pregnancy 806
sperm preparation, asthenozoospermia, epididymis, IVF, ZIFT 838
sperm preparation, male infertility, IVF 261
sperm preparation, Percoll gradient, swim-up, follicular fluid, zona-free hamster egg penetration test 255
sperm preparation, Percoll gradients, swim-up, IVF, pregnancy 399
sperm progressive motility, hypo-osmotic swelling test, sperm mucus penetration test, prognostic value 1240
sperm tail fibrous sheath, intermediate filament, monoclonal antibody, Triton−dithiothreitol, electron microscopy 86
sperm tail morphology, ultrastructure, axonemal abnormalities, asthenozoospermia 510
sperm transport, Fallopian tubes, scanning electron microscopy, case report 506
subzonal insemination, fertilization 1407
swim-up preparation, sperm fertility, hypo-osmotic swelling test, intrauterine insemination 1264

Stereology
ovarian surface epithelium, transmission electron microscopy 446

Steroid binding protein
inhibin, preovulatory follicular fluid, ovarian stimulation, IVF−ET 765

Steroid receptors
endometrium, immunohistochemistry, histoscore, rabbit model, pregnancy 73
ovarian steroids, endometrium, peritoneal mesothelium, endometriosis 1318

Steroidogenesis
granulosa cells, growth hormone 1205
tumour necrosis factor, interleukin-1, interferon, cytokine 1361

Steroids
free steroids, steroid-binding proteins, androgens, IVF 1365

Subclavian vein thrombosis
ovarian hyperstimulation syndrome, IVF, case report 370

Substance P
vasoactive intestinal polypeptide, endothelium-derived relaxing factor, noradrenaline, bioactive peptides 1185

Subzonal insemination
oocytes, cleavage rate, acrosome-free spermatozoa, fertilization rate, IVF 248

Superovulation
GnRH agonists, ovarian hyperstimulation syndrome, polycystic ovarian disease, HMG, IVF 320

Superoxide dismutase
CuZn-superoxide dismutase, immunohistochemistry, polyclonal antibody, male genital organs, human 81

Surgical adjuvant
Interceed, laparoscopic pelvic surgery 1141

Surrogacy
genetic versus gestational mother, Californian court of appeal 1029

Taurine
embryos, preimplantation development, mouse, 2-cell block 403

Techniques
heat shock proteins, monoclonal antibodies, immunohistochemical localization 637
polymerase chain reaction, β-globin, blastomeres, preimplantation diagnosis 630
specificity, HCG, pregnancy tests, immunoassay, ELISA 701

Testosterone
androstenedione, sex hormone-binding globulin, ovarian hyperstimulation syndrome, GnRH analogue, HCG 918

Testosterone undecanoate
Andriol, failed fertilization, male infertility, IVF 267

Thalassemia
severe immunodeficiency disease, human fetus, fetal liver transplantation, in-utero transplantation, stem cells 44

Thromboembolism
ovarian hyperstimulation syndrome, IVF, case report 370

Thyrotrophin-releasing hormone
pituitary dynamic tests, galactorrhoea, prolactin, infertility 912

Tissue culture
granulosa cells, polycystic ovarian disease, oestrogen, progesterone, FSH 293

Transcervical tubal cannulation
falloposcopy, ectopic pregnancy, case report 274

Transcript induction
retinoic acid receptors, retinoic acid, endometrium, stromal cells 692

Transforming growth factor-α
interleukin receptor antagonist, reverse transcription−polymerase chain reaction, interleukins, cytokines, endometrium 1214

Transgenic mouse model
biopsied trophectoderm cells, polymerase chain reaction, human β-globin gene, preimplantation diagnosis 1297

Translocation
Y;13 translocation, meiotic analysis, infertility 1118

Transmission electron microscopy
stereology, ovarian surface epithelium 446

Tray agglutination test
mixed antiglobulin reaction, antisperm antibodies, male infertility, corticosteroid immunosuppression 99

Triplets
mother−child relationship, maternal well-being, psychosocial aspects 729

Triton mono-polar electrode
conservative laparoscopy, isthmic ectopic pregnancy, prognosis 422

Trophoblast tissue cultures
ectotopic pregnancy, intrauterine pregnancy, HCG, methotrexate 311

D-Trp-6-LHRH
depot administration, standard versus half-doses, pituitary desensitization 1230

Tubal anastomoses
Fallopian tube, fibrin glue, adhesions, fertility, rabbit 1274

Tubal embryo transfer
pregnancy, biochemical pregnancy, endometrial thickness, IVF, GIFT 418

Tubal surgery
infertility, cost-effectiveness analysis, IVF 982

Tumour necrosis factor
steroidogenesis, interleukin-1, interferon, cytokine 1361

Turner's syndrome
endometrial biopsy, epithelial tight junctions, implantation 883

Ultrasonography
amniotic fluid, exocoelomic fluid, maternal serum, protein electrophoresis, pregnancy 886
endometrial thickness, histological dating, clomiphene citrate, luteal phase 1
ovulation detection, ovarian activity, bromocriptine, post-partum application 746
polycystic ovaries, endocrinopathy, hormonal pulses 458
polycystic ovaries, menstrual dysfunction, endocrinopathy 453

Ultrasound
crown−rump length, gestational sac diameter, twin pregnancy 1170

Uterine mast cell
embryonic histamine-releasing factor, oestradiol, rat 1036

Uterus
uterine ageing, maternal age, hormone replacement therapy, oocyte recipients, pregnancy 733
uterine fibroids (leiomyomata), LHRH agonist, goserelin, Zoladex, medroxyprogesterone acetate 328
uterine myomata, CA 125, immunoradiometric assay, GnRH analogue, GnRH therapy versus hysterectomy 35

Vaginal disinfection
Betadine, saline, fertilization rate, pregnancy, IVF−ET 349

Vasoactive intestinal polypeptide
substance P, endothelium-derived relaxing factor, noradrenaline, bioactive peptides 1185

Vero cells
embryos, co-culture, culture media, embryotrophic factors, mouse 276
Vitamin D
vitamin D_3 metabolites, oestradiol, follicular fluid, IVF–ET 1357

ZIFT
Kallmann's syndrome, pregnancy, IVF 1268
natural progesterone supplement, early pregnancy, luteal phase defect, GnRH agonist 168
spermatozoa, sperm preparation, asthenozoospermia, epididymis, IVF 838
Zoladex
goserelin, LHRH agonist, uterine fibroids (leiomyomata), medroxyprogesterone acetate 328
Zona pellucida
cruciate zona drilling, blastocyst hatching, micromanipulation, mouse 532
porcine zona pellucida, sperm–oocyte interaction, sperm binding capacity, human 1150
zona hardening, cryopreservation, fetal bovine serum, dimethylsulphoxide, calcium ionophore, mouse 408
Zona-free hamster egg penetration test
sperm preparation, Percoll gradient, swim-up, follicular fluid 255
Zona-free oocytes
fertilization, embryos, mouse 281
